Set the right mood, dazzle your guests and enjoy every minute of your big day with the perfect soundtrack, lighting and special effects.

The heart and soul of your reception

While many brides and grooms think their guests will remember every last detail from their event, the truth is, they won't. But they *will* remember how you made them feel.

We're wedding DJs in Ottawa who understand that *music is magic*. The right selection of tracks honours your vision and makes your guests come alive in a way they'll cherish for years to come.

The sound AND the look

Equipped with state-of-the-art tech and sound gear, you can bank on crisp, clear sound from beginning to end. As much as we focus on leading sound quality, we're also big believers in the importance of appearance and first impressions. That's why your DJ

dresses for the occasion and has a beautifully set-up, stunning display that oozes professionalism.

Exclusively Yours

Your day, your DJ. When you book Soundsations for your wedding day, you benefit from exclusivity - all day long. No other weddings are booked on the same day so your DJ is able to give you the undivided attention and laser focus you deserve.

A personal touch

No two weddings are the same, and no two soundtracks are either. One of our favourite parts about what we do is the personal connection we get to make with our clients. Your dedicated DJ takes the time to learn about you as a couple and then crafts the perfect complementary playlist for your mood-setting cocktail hour and exciting reception.

ABOUT

Great music makes us feel something we never forget.

Soundsations is an award-winning, professional wedding DJ service based in Ottawa. Whatever your plan, whatever your style, we're a team of talented and detail-oriented music fanatics who stop at nothing to make yours an unforgettable event.

Meet the founder, DJ Mark

For as long as he can remember, DJ Mark has had an insatiable passion for everything music. He first dropped the needle as a wedding DJ at a quaint little backyard reception and had everyone on their feet.

Mark founded Soundsations in 2009, and he hasn't looked back since.

Decades of passion

We've been in the industry professionally for over 20 years now, but our keen interest in music entertainment runs far deeper than that. When you bring Soundsations onboard, what you and your wedding stand to benefit from is exceptional client care, musical expertise and a massive repertoire of songs ranging from way-back classics to the latest chart-topping hits.

A personalized approach

At Soundsations, there's nothing we love more than connection. One of our favourite parts of the service we provide is the time we spend *before* the wedding day, working

closely with you to identify your vision, pinpoint your unique preferences and then carefully craft a music entertainment plan that leaves a lasting impression on people.

Bringing your theme to life

Every wedding has a theme (even when it doesn't). Maybe your style is best captured by a compilation of retro 80s hits, the likes of R&B's finest talent in the 90s, or the best-of-2000s-hip-hop. Whatever the ideal music for your day, we plan ahead and compile your ideal soundtrack.
